

CALL FOR PAPERS

ICEERE 2023
Dec 02-03, 2023
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEERE 2023 : International Conference on Electronic Engineering and Renewable Energy is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electronic Engineering and Renewable Energy. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Communications and networking
Image, video, and signal
processing
Computer systems and application
Informatics
Information technology
Bioengineering
Nanotechnology
Circuits and systems
Embedded and intelligent systems
Materials for energy
Power electronics, systems and
applications
Command and control systems for
renewable energy

Energy efficiency
Green energy technology
Photovoltaic and solar energy
Wind energy
Thermal energy and heat transfer
Hybrid renewable energy
Fuel cell, biogas, biomass
Energy storage and management
Smart grids and power plant
Smart cities and homes
Water and environmental
