

# CALL FOR PAPERS

**ICESDC 2023**  
**Dec 27-28, 2023**  
**Vienna, Austria**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICESDC 2023 : International Conference on Emulsion Science and Dispersion Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Emulsion Science and Dispersion Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Dispersion chemistry  
Thermodynamics and dispersion chemistry  
Colloid and surface chemistry  
Colloidal particles, nanoparticles and fluids  
Soil colloidal chemistry

Dispersion chemistry systems, emulsion science and technology  
Colloidal chemistry in pharmacology and medical sciences  
The applications of dispersion chemistry in industrial applications  
Dispersion chemistry in environmental science and pollution treatment
