

CALL FOR PAPERS

ICFTFA 2024
Jan 28-29, 2024
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFTFA 2024 : International Conference on Food Traceability and Food Authenticity is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Food Traceability and Food Authenticity. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Food traceability
Traceability in the food industry
Traceability systems in food supply chains
New technologies in traceability systems
Food traceability techniques and technologies
Regulations and legislation on food traceability
Effective use of food traceability
Traceability in food supply chains

Food supply chain mapping
Food traceability system architectures
Methods, devices, and sensors for food traceability
Radio-frequency identification usage in food traceability
Molecular biology techniques in food traceability
Near infrared spectroscopy and food authenticity
Traceability software for the food industry
Future trends
