

CALL FOR PAPERS

ICCA 2024
Jun 10-11, 2024
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCA 2024 : International Conference on Control and Automation is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Control and Automation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Control Science and Engineering

Adaptive control

Robust control

Process control

Complex systems

Co-operative control

Identification and estimation

Nonlinear systems

Intelligent systems

Discrete event systems

Hybrid systems

Networked control systems

Sensor network systems

Delay systems

Neural networks

Fuzzy systems

Control of biological systems

Precision motion control

Control applications

Control engineering education

Automation Science and Engineering

Man-machine interactions

Process automation

Intelligent automation

Factory modeling and simulation
