

CALL FOR PAPERS

ICISSA 2024
Aug 09-10, 2024
Lagos, Nigeria

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICISSA 2024 : International Conference on Intelligence Systems and Sensor Application is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Intelligence Systems and Sensor Application. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

- Intelligence systems and sensors
- Artificial intelligence
- Complex systems
- Computational intelligence
- Evolutionary computing
- Fault detection and diagnosis
- Fuzzy control
- Fuzzy sets and logic
- Fuzzy systems
- Granular computing
- Intelligent communications
- Intelligent electronics
- Intelligent electrical systems

- Information fusion
- Intelligent control
- Intelligence sensors
- Smart sensors
- Imaging sensors
- Sensor application
- Others
- Intelligent manufacturing systems
- Intelligent medical systems
- Intelligent systems
- Intelligent transportation systems
- Machine learning
- Mathematical models
