

# CALL FOR PAPERS

**ICNWM 2025**  
**Jul 29-30, 2025**  
**Zurich, Switzerland**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNWM 2025 : International Conference on Nuclear Waste Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nuclear Waste Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nuclear waste management	Management of long-lived waste
Radioactive waste management	Partitioning and transmutation
Nuclear waste types	Storage
Radioactive waste	Deep geological disposal
Management solutions	High-level waste
Strategy	Transuranic waste
Nuclear waste treatment, storage and disposal	Uranium mill tailings
Nuclear and radiation safety	Low level waste
Planning of the disposal method	Wastes from decontamination and decommissioning
Planning and design of the disposal facility and disposal operation	Mixed waste
Operation of a disposal facility	Nuclear energy economics and policy analysis
Demonstration of compliance with safety requirements	Waste decay behavior
Regulatory oversight by the radiation and nuclear safety authority
