

# CALL FOR PAPERS

**ICISPCS 2025**  
**Oct 21-22, 2025**  
**London, United Kingdom**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICISPCS 2025 : International Conference on Intelligent Signal Processing and Communication Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Intelligent Signal Processing and Communication Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Digital Communications  
Space-Time Coding  
OFDM and CDMA  
Mobile and Wireless Communications  
Networks and QOS  
Image Processing  
DSP For Communications  
Video and Multimedia Signal  
Processing  
Communications Receivers  
Signal Processing and Applications

Biomedical Signal and Image  
Processing  
Speech and Audio Processing  
Adaptive and Non-Adaptive Filtering  
and Implementations Applications  
Electrical Machines and Drives  
Control design methods  
Discrete and Hybrid systems  
Control Applications  
Nonlinear Control and Applications  
Power Systems  
Control System Modeling and  
Identification
