

# CALL FOR PAPERS

**ICEPA 2025**  
**Dec 06-07, 2025**  
**Kuala Lumpur, Malaysia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEPA 2025 : International Conference on Environmental Pollution and Agriculture is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Environmental Pollution and Agriculture. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Water quality and public health  
Purification of drinking-water supplies  
Treatment, disposal and discharge of wastewater  
New wastewater treatment technologies  
Methods of monitoring water quality  
Modeling and measuring of water pollution  
New water purification technologies  
Ground water pollution control  
Water resources and quality assessment  
Water resource protection and sustainable use  
Hydrobiology and water pollution  
Air pollution and public health  
Effects of air pollution on public health

Sources of air pollution  
Air pollution monitoring and modeling  
Air pollution prevention and control  
Urban and indoor air pollution and control  
Air quality measurement and management  
Global climate change and air pollution  
Chemical pollutants and its effects on health  
Land pollution and its effects on health  
Radiation safety in atomic industry  
Food and drug safety control  
Hazardous materials management  
Solid waste management  
Environmental toxicology
