

CALL FOR PAPERS

ICEMPE 2015
Nov 19-20, 2015
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEMPE 2015 : International Conference on Electrical Machines and Power Electronics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Electrical Machines and Power Electronics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Electric Transport Systems	Special and superconducting
Railway Systems	Generators
Marine Propulsion, Drives and Power Systems	Fuel Cells, Embedded Generation and Energy Storage
Electric Aircraft Technologies	Synchronous Machines
Actuation Systems	Power Quality and Protection
Starter/Generator Systems	HVDC and Voltage-source HVDC
Electric/ Fuel Cell/ Hybrid Vehicles	Energy Efficiency and Demand Side Control
Automotive Systems	Machines and Drives
System Control	Integrated Drives
Generation, Transmission, Distribution and Renewables	Energy Efficient Drives
Converters for Grid Connection	Fault Tolerant Drives
FACTS, Custom Power and Micro-Grids	Motion Control Systems
	Advanced and Sensorless Machine Control
