

# CALL FOR PAPERS

**ICPMBE 2017**  
**May 18-19, 2017**  
**Paris, France**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPMBE 2017 : International Conference on Personalized Medicine and Biological Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Personalized Medicine and Biological Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cancer Genomics: Discovery to  
Translation  
Disease Gene Discovery  
Technology and Sensors  
Genomics Informs Personalized  
Immunotherapy

Personal Medicine and Health  
Personalized and Preventative  
Medicine  
Translational and Clinical Genomics
