

CALL FOR PAPERS

ICLLSLB 2018
May 10-11, 2018
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICLLSLB 2018 : International Conference on Language Lateralization, Sign Language and Bilingualism is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Language Lateralization, Sign Language and Bilingualism. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Language lateralization	
Lateralization of language processes	
Lateralization of language functions	
History of research on lateralization	
Paul Broca and Carl Wernicke	
Methods of assessing lateralization	
Lesion studies	
Split brain studies	
Culture and language lateralization	
Functional transcranial Doppler ultrasonography	
Electrical stimulation, TMS and imaging	
Language functions of the left and right hemispheres	
Anatomical asymmetries	
	Lateralized cognitive processes
	Handedness and language
	Pathology
	Hemisphere damage
	Plasticity
	Broca's aphasia
	Wernicke's aphasia
	Proposed correlations
	Handedness
	Sex differences
	Sign language and bilingualism
	Reorganization following brain injury
