

# CALL FOR PAPERS

**ICM 2018**  
**Dec 03-04, 2018**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICM 2018 : International Conference on Microbiome is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Microbiome. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Antimicrobial Agents and Infectious Diseases  
Applied and Environmental Science  
Clinical and Public Health  
Microbiology  
Complex Microbiome Analyses  
Ecological and Evolutionary Science  
Genetic Diversity and Communication  
Host-Microbe Biology  
Human Microbiome  
Human Microbiome Studies  
Inflammation and Cancer Stem Cells  
Inflammation and Immunity  
Inflammation-Driven Cancer  
Metagenomic Analysis

Microbiome and Cancer  
Microbiome and Disease  
Microbiome in Health and Disease  
Molecular Biology and Physiology  
Molecular Discovery of Novel Antimicrobials  
Monitoring Microbiome to Predict Disease Risk  
Prevention and Therapy  
Prevention and Therapy  
Profession of Microbiology  
Stromal Cells and the Tumor Microenvironment  
Systems Microbiology  
The Integrative Human Microbiome  
Tumor-Elicited Inflammation
