

CALL FOR PAPERS

ICPHDP 2019
Apr 24-25, 2019
Boston, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPHDP 2019 : International Conference on Pediatric Heart Diseases Pathology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Pediatric Heart Diseases Pathology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cardiovascular medicine
Modern practices in cardiovascular therapy
Cardiac progenitor cells
Percutaneous coronary intervention
Hypertension for the primary care clinician
Exercise physiology in heart failure
Cardiac pacing strategies in heart failure
Neurohumoral, immunologic and cytokine aspects of heart failure
Pulmonary circulation aspects, pulmonary hypertension
Predictors and markers of heart failure outcome
Beta-blockers and beta-adrenergic receptors in heart failure

Left ventricular hypertrophy and hypertrophic cardiomyopathy
Heart rhythm and miscellaneous cardiology topics
Coronary heart disease and vasospasm, atherothrombotic disease
Cardio myopathy and arteriosclerotic vascular disease
Myocardial infarction and arrhythmias
Inflammatory heart disease, hypertension
Cardiovascular diseases in women
Pediatric heart diseases
Innovation in ischemic heart disease, angiogenesis
Epidemiological transition of cardiovascular disease
