

CALL FOR PAPERS

ICCCIS 2019
Apr 22-23, 2019
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCIS 2019 : International Conference on Cyber Crime and Information Security is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Cyber Crime and Information Security. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Cyber crimes: evolution, new trends and detection
Cyber crime related investigations
Computer and network forensics
Digital forensics tools and applications
Digital forensics case studies and best practices
Privacy issues in digital forensics
Network traffic analysis, traceback and attribution
Incident response, investigation and evidence handling
Integrity of digital evidence and live investigations

Identification, authentication and collection of digital evidence
Anti-forensic techniques and methods
Watermarking and intellectual property theft
Social networking forensics
Steganography/steganalysis and covert/subliminal channels
Network anomalies detection
Novel applications of information hiding in networks
Political and business issues related to digital forensics and anti-forensic techniques
