

# CALL FOR PAPERS

**ICPC 2019**  
**Jul 15-16, 2019**  
**Stockholm, Sweden**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPC 2019 : International Conference on Plasmon Chemistry is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Plasmon Chemistry. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Plasmon chemistry  
Plasmon-enhanced chemical reactions  
Plasmonic hot electron transport  
Plasmon-induced charge separation  
Plasmonic nanoparticles  
Surface plasmons  
Possible applications  
Plasmons in graphene

Surface plasmon resonance  
Applications of surface plasmon resonance  
Material characterization  
Data interpretation  
Binding constant determination  
Thermodynamic analysis  
Pair-wise epitope mapping  
Magnetic plasmon resonance
