

CALL FOR PAPERS

ICNR 2019
Oct 10-11, 2019
Chicago, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICNR 2019 : International Conference on Nanopharmaceutical Research is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Nanopharmaceutical Research. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Nanopharmaceuticals
Recent advances in
nanopharmaceuticals
Drug targeting
Challenges and advances in
nanopharmaceuticals
Future aspects of
nanopharmaceuticals
Nanoparticulate systems for oral
drug delivery to the colon
Multifunctional magnetic
nanoparticles for orthopedic and
biofilm infections

Poly(propyleneimine) dendrimers as
potential sirna delivery
nanocarrier: from structure to
function
The role of nanotechnology in
diabetes treatment: current and
future perspectives
Nanobiotechnology approaches for
targeted delivery of pharmaceuticals
and cosmetics ingredients
Nanocarrier systems in drug
delivery
Application of nanoparticles and
nanocarrier systems in
pharmaceuticals and nanomedicine
Enhanced tumour-imaging efficacy of
5-aminolevulinic acid complexed
with iron oxide nanoparticles
