

CALL FOR PAPERS

ICSIR 2019
Nov 11-12, 2019
Rome, Italy

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSIR 2019 : International Conference on Social Intelligence and Robotics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Social Intelligence and Robotics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Social intelligence and robotics
Socially intelligent robots
Social robotics
Human-robot interaction
The nature of social intelligence
Social skills
Social interactions with robots
Mobile robotic toys
Artificial emotions for managing social behavior
Interaction using visual signs
Robotics and human environment
Interaction and collaboration among robots, humans, and environments

Robots to assist the elderly and persons with disabilities
Socially assistive robots to improve quality of life
Affective and cognitive sciences for socially interactive robots
Personal robots for the home
Social acceptance and impact in the society
Robot ethics in human society
Context awareness, expectation, and intention understanding
Control architectures for social robotics
Socially appealing design methodologies
Safety in robots working in human spaces
Human augmentation, rehabilitation, and medical robots
Robot applications in education, entertainment, and gaming
