

CALL FOR PAPERS

ICHBIBD 2019
Nov 18-19, 2019
Singapore, SG

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICHBIBD 2019 : International Conference on Human-Building Interaction and Building Design is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Human-Building Interaction and Building Design. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Human-building interaction
Future of human-building interaction
Human-building interactions for intelligent built environments
Design and evaluation of technologies, to enhance human interaction with buildings
Data acquisition and user modeling, applied to human-building interaction-related opportunities and challenges
Human-building interaction for energy conservation
Occupant behavior and energy consumption

Information and data-driven design, construction and management processes
Data-driven strategies towards efficient, adaptive and sustainable operations
User and context aware building design and management
Data capturing, visualization and processing methods and techniques
Intelligent, adaptive, interactive and interconnected buildings and systems
Emerging research tools and methods
