

# CALL FOR PAPERS

**ICCSE 2019**  
**Dec 19-20, 2019**  
**Dubai, UAE**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSE 2019 : International Conference on Computer Science and Engineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computer Science and Engineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

|  |                                     |
|--|-------------------------------------|
| Algorithms                                 | Computer Networks                   |
| Artificial Intelligence                    | Computer Security                   |
| Automated Software Engineering             | Computer Simulation                 |
| Bioinformatics and Scientific Computing    | Computer Vision                     |
| Biomedical Engineering                     | Computer-aided Design/Manufacturing |
| Compilers and Interpreters                 | Computing Ethics                    |
| Computational Intelligence                 | Computing Practices & Applications  |
| Computer Animation                         | Control Systems                     |
| Computer Architecture & VLSI               | Data Communications                 |
| Computer Architecture and Embedded Systems | Data Compression                    |
| Computer Games                             | Data Encryption                     |
| Computer Graphics & Virtual Reality        | Data Mining                         |
| Computer Modeling                          | Databases                           |
