

# CALL FOR PAPERS

**ICCSS 2019**  
**Dec 19-20, 2019**  
**Dubai, UAE**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCSS 2019 : International Conference on Computational and Statistical Sciences is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Computational and Statistical Sciences. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Advanced Numerical Algorithms  
Analytic methods  
Approximation theory  
Bayesian computing  
Biological and medical applications  
Biometry and Statistics  
Computation in Complex Networks  
Computational Biology and Medicine  
Computational Chemistry  
Computational Economics and Finance  
Computational electrodynamics  
Computational electromagnetics  
Computational Engineering

Computational Finance  
Computational fluid dynamics  
Computational Geosciences and Meteorology  
Computational Grids  
Computational Mathematics  
Computational Mechanics  
Computational models  
Computational Physics  
Computational Statistics  
Control theory and applications  
Coupled problems  
Data exploration and data mining  
Dynamical systems
