

CALL FOR PAPERS

ICACCM 2019
Dec 19-20, 2019
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICACCM 2019 : International Conference on Animal Cytogenetics and Comparative Mapping is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Animal Cytogenetics and Comparative Mapping. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Animal cytogenetics
Domestic animal cytogenetics
Cytogenetics in animal production
Animal cytogenetics and gene mapping
Techniques in animal cytogenetics
Gene mapping and chromosome research
Molecular genetics
Cytomolecular diagnostics of animals
Genetic identification and parentage testing of animals, based on markers
Identification of gene mutations

Study of the etiology of neurodegenerative diseases
Preparation of chromosome spreads
Chromosome banding techniques
In situ hybridization techniques
Methods of germ cells study
The lampbrush chromosomes of amphibians
Drosophila chromosome study techniques
Techniques of interphasic nucleus study
Application of flow cytometry
