

# CALL FOR PAPERS

**ICEFE 2019**  
**Dec 19-20, 2019**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEFE 2019 : International Conference on Experimental Finance and Economy is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Experimental Finance and Economy. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Experimental finance  
Theory, econometrics and experiments  
The fundamental method and challenge in experimental finance  
Testing behavioral assumptions  
Equilibrium assumptions: multiple equilibria  
Equilibrium assumptions: convergence  
Testing models  
Individual bias and aggregate market behavior  
Insights from comparing experimental psychology and experimental economics  
Advantages

Avoid omitted-variables biases  
Avoid self-selection problems  
Avoid problems of unobservable independent variables  
Avoid problems of unobservable dependent variables  
Types of experiments  
Laboratory experiments  
Controlled field studies or randomized field experiments  
Natural experiments  
Main findings
