

CALL FOR PAPERS

ICAN 2019
Dec 30-31, 2019
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAN 2019 : International Conference on Advances in Neurobioengineering is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Neurobioengineering. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Neurobioengineering
Biosciences and bioengineering
Neural circuits and networks
Systems neuroscience and
neuroengineering
Clinical and translational
neuroengineering

Computational neuroengineering
Neuroimaging
Neurotechnology
Systems neuroscience
