

CALL FOR PAPERS

ICWISDA 2019
Dec 04-05, 2019
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICWISDA 2019 : International Conference on Web Information Systems Design and Analysis is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Web Information Systems Design and Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Web information system
Web information mining
Web information mining algorithm
Web information systems analysis and design
Web information systems development and implementation
The co-design approach
Data-intensive web information systems
Content-intensive applications

View integration and cooperation in databases, data warehouses and web information systems
User preferences, obligations and rights
Strategic modeling of web information systems
Conceptual modelling of web information systems
Privacy enhanced information systems
Web information systems with navigational patterns
Data quality in web information systems
