

CALL FOR PAPERS

ICAT 2020
Jan 20-21, 2020
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAT 2020 : International Conference on Asphalt Technologies is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Asphalt Technologies. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Asphalt science and technology
Asphalt materials
Modern uses of asphalt
Rolled asphalt concrete
Mastic asphalt
Asphalt emulsion
Synthetic crude oil
Non-upgraded crude bitumen
Conversion factors for asphalt materials: weight, temperature conversions, area, concentration
History, use and production of asphalt
Asphalt, bitumen, tar and pitch
Residua and asphalt
Test methods for asphalt binders

Test methods for aggregate and asphalt concrete
Asphalt chemistry
Asphalt deposition
Asphalt paving and laydown
Environmental aspects of asphalt use
Paving standards and road standards
Asphalt plant
Asphaltene
Bioasphalt
Bitumen-based fuel
Bituminous coal
Bituminous rocks
