

CALL FOR PAPERS

ICGSIMGTA 2020
Jan 20-21, 2020
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGSIMGTA 2020 : International Conference on Geotechnical Site Investigation Methods, Geophysical Testing and Analysis is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Geotechnical Site Investigation Methods, Geophysical Testing and Analysis. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Geotechnical investigation
Analysis requirements for
structures
Geotechnical investigation and
testing
Geotechnical site investigation
methods
Test pitting, drilling, soil
sampling and rock coring
In situ testing, cone penetration
testing of soil profiles
Geophysical testing
Standard penetration test
Cone penetration test
Geotechnical investigation and
testing program
Laboratory testing methods for
soils and rocks

Applications and limitations
Geotechnical parameter assessment
Location and depth of borings
Boring and sampling
Field record
Laboratory testing
Geotechnical report
Geologic mapping
Geophysical methods
Photogrammetry
