

# CALL FOR PAPERS

**ICRGA 2020**  
**Jan 13-14, 2020**  
**Bali, Indonesia**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRGA 2020 : International Conference on Riemannian Geometry and its Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Riemannian Geometry and its Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Riemannian Geometry  
Sectional Curvature Comparison  
Symmetric Spaces and Holonomy  
Ricci Curvature Comparison  
Differentiable Manifolds  
The Tangent Space

The Tangent Bundle  
Riemannian Manifolds  
The Levi-Civita Connection  
Geodesics and Distance  
The Riemann Curvature Tensor  
Curvature and Local Geometry
