

CALL FOR PAPERS

ICGGG 2020
Jan 30-31, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGGG 2020 : International Conference on Global Geophysics and Geomorphology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Global Geophysics and Geomorphology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Global geophysics

Mineralogy and petrology

Gravity and magnetic methods

Exploration seismology

Geophysical signal processing

Geological engineering and groundwater

Nuclear geophysics

Remote sensing and GIS in geomorphology

Tectonics and crustal evolution

Geophysics market

Petroleum geology

Environmental geology

Geology and mineral resources

Geological engineering

Tectonics and sedimentation

Structural geology

Exploration geophysics

Mining geology

Volcanology

Physical geology

Geomorphology

Geophysics and geodynamics

Planetary geology

Environmental geology
