

CALL FOR PAPERS

ICPSESTCAES 2020
Jan 30-31, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPSESTCAES 2020 : International Conference on Power System Energy Storage Technologies and Compressed-Air Energy Storage is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Power System Energy Storage Technologies and Compressed-Air Energy Storage. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Power system energy storage technologies
Energy storage technologies in power systems
Electrical and electrochemical storage system
Energy storage technologies for wind power applications
Pumped storage hydropower
Pumped storage technology
Compressed-air energy storage

Large-scale batteries
Superconducting magnetic energy storage
Hydrogen energy storage
Energy storage capacitor principles
Performance characteristics
Applications
