

CALL FOR PAPERS

ICRRPM 2020
Jan 30-31, 2020
Dubai, UAE

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRRPM 2020 : International Conference on Recreation Resource Planning and Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Recreation Resource Planning and Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Recreation resource planning
Park and recreation administration
Recreation resource inventories and studies
GIS applications for recreation resource management
Parks and recreation in underserved areas
Recreation supply and demand analysis and management

Collaborative planning and public participation
Recreation planning and decision making processes
Recreation resource plan implementation
Emerging issues in recreation resource planning
Human resource management in parks and recreation
