

CALL FOR PAPERS

ICAPFDC 2020
Jan 30-31, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICAPFDC 2020 : International Conference on Active Power Filter Design and Control is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Active Power Filter Design and Control. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Active power filters for power quality
Recent advances in active power filters
Control techniques for active power filters
Power line harmonic compensators
Series, shunt and hybrid type active power filters
Topological developments of active power filters

Power quality monitoring
Reference generation techniques
Power line conditioners
Advanced controllers
Soft computing in power line conditioners
Power filters
