

CALL FOR PAPERS

ICCGWCRP 2020
Jan 30-31, 2020
Istanbul, Turkey

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCGWCRP 2020 : International Conference on Coal Geology, World Coal Reserves and Production is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Coal Geology, World Coal Reserves and Production. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Coal geology	Coal exploration and data
Coal use	collection
Sedimentation of coal and	Field techniques
coal-bearing sequences	Geotechnical properties
Structural effects on coal	Computer applications
Age and occurrence of coal	Coal resources and reserves
Plate tectonics	World coal reserves and production
Stratigraphy	Geophysics of coal
Age and geographical distribution	Physical properties of coal-bearing
of coal	sequences
Physical description of coal	Surface geophysical methods
Coalification	Underground geophysical methods
Coal quality	Geophysical borehole logging
Classification of coals	Hydrogeology of coal
Coal sampling and analysis	Geology and coal mining
