

# CALL FOR PAPERS

**ICGAE 2020**  
**Jan 30-31, 2020**  
**Istanbul, Turkey**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGAE 2020 : International Conference on Green Architecture and Environment is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Green Architecture and Environment. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Adapting to Climate Change  
Architecture and Building  
Architecture Engineering  
Building Energy Conservation and  
Green Architecture  
Building Energy Saving Technology  
Civil Engineering  
Civil Engineering Materials  
Conserve Energy  
Construction and Renewable Energy  
Sources  
Construction Engineering Systems  
Design for Deconstruction  
Design for Minimizing and Using  
Construction and Demolition Waste  
Develop Energy Efficient Buildings  
at Design Stage to Secure Long-term  
Savings

Environmental Science and  
Engineering  
Geotechnical Engineering  
Green Architecture and Alternative  
Energy Sources  
Green Building and Environment  
Green Building Architecture  
Green Building Materials  
Green Buildings and Architecture  
Green Buildings and Pollution  
Green Construction or Sustainable  
Building  
Landscape Planning and Design  
Smart Materials  
Structural Engineering  
Sustainable Design and  
Architecture
