

CALL FOR PAPERS

ICMECCMC 2020
Jan 20-21, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMECCMC 2020 : International Conference on Marine Ecology, Climate Change and Marine Conservation is

the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Marine Ecology, Climate Change and Marine Conservation. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Marine and atmospheric science
Oceanographic and atmospheric research
Tropical marine
Ocean currents
Environmental understanding and management
Marine conservation
Marine physics
Structure, physics, dynamics and thermodynamics of the atmosphere
Physical and chemical processes in coastal ecosystems
Marine and atmospheric chemistry
Marine mammals
Marine biology and fisheries
Marine geology and geophysics

Meteorology and physical oceanography
Global climate change
Atmospheric observation
Weather analysis
Marine affairs and policy
Oceanography
Biological oceanographic techniques
Weather and climate
Modern meteorology
Plants and animals of the sea
Environmental oceanography
Tropical marine biology
Mathematical methods for marine science
