

CALL FOR PAPERS

ICMSA 2020
Jan 20-21, 2020
London, United Kingdom

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMSA 2020 : International Conference on Marine Seismic Acquisition is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Marine Seismic Acquisition. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Marine seismic acquisition
techniques and technologies
Recent advances in marine seismic
acquisition and processing
technology
Acquisition and processing of
marine seismic data
Technology management models for
marine seismic acquisition
Conventional multichannel seismic
equipment
High resolution seismic equipment

Reservoir exploration technology
Broadband acquisition
Time lapse acquisition
Simultaneous source acquisition
Exercise on ghost notch design
