

CALL FOR PAPERS

ICEEPE 2020
Jan 30-31, 2020
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICEEPE 2020 : International Conference on Ecological Efficiency and Processes of Ecosystems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Ecological Efficiency and Processes of Ecosystems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fundamentals of Ecology
Environmental and Earth Sciences
Biological Magnification
Loss of Biodiversity
Processes of Ecosystems
Components of an Ecosystem
Ecological Efficiency
Climate Change Impacts On Plants
Conservation Biology, Policies and Management
Environmental Hazards and Ecosystem
The Transformation of Energy

Ecophysiology
Ecological Pyramids
Macro-ecology and Biogeography
Networks and Biotic Interactions
Parasites, Pathogens and Disease
Population and Community Ecology
Restoration Ecology
Socio-ecosystems and Ecosystem services
Soil Ecology, Biogeochemistry and Plant Soil Interactions
Urban Ecology
Climate Change and International Response
