

CALL FOR PAPERS

ICPMCF 2020
Jan 30-31, 2020
New York, USA

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICPMCF 2020 : International Conference on Powder Metallurgy and Ceramic Forming is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Powder Metallurgy and Ceramic Forming. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Materials behavior
Powder metallurgy and ceramic forming
Non ferrous metal material
Iron and steel
High strength alloys
Materials processing and handling
Composite materials

Materials forming
Nanomaterials and nanomanufacturing
Semiconductor materials manufacturing
Advanced ceramics: synthesis, properties, and applications
Advanced materials for solar energy conversion
Advances in surface science and engineering
