

CALL FOR PAPERS

ICABEDA 2020
Jan 23-24, 2020
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICABEDA 2020 : International Conference on Advances in Biomedical Electronics, Devices and Applications is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Advances in Biomedical Electronics, Devices and Applications. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Biomedical electronics
Biomedical instrumentation
Biomedical equipment
Biomedical sensors
Biomedical metrology
Microelectronics
Clinical biochemistry
Biomechatronics
Biomaterials
Biophysics
Biomechanics of injury and wound
healing
Bionics
Biometrics

Cellular, tissue and genetic
engineering
Medical engineering systems and
applications
Biomedical intelligence and
clinical data analysis
Orthopedic bioengineering
Computational models
Robotic vision
Rehabilitation engineering
Systems physiology
Bionanotechnology
Bioinformatics of diseases
Bioinstrumentation
Neural engineering
