

CALL FOR PAPERS

ICCCC 2020
Jan 23-24, 2020
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICCCC 2020 : International Conference on Climatology and Climate Change is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Climatology and Climate Change. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Environmental impacts of energy systems
Energy systems impacts on weather, climate and surrounding physical environments
Micrometeorology effects on power systems
Adaptation and Mitigation
Climate Change and Agriculture
Climate Change and Disaster Risk Management
Climate Change and Health Issues
Climate Change and Sustainable Development
Climate Finance
Climate Justice
Coastal, Ocean and Arctic Systems
Community Development

Disaster Risk Reduction
Ecological Engineering
Energy Systems
Food and Nutrition Security
Health-promoting Climate Change Policies
Human Rights and Water
Infrastructure and Buildings
Mitigation, Adaptation and Risk Management
Modeling and Analysis
Oceans, Seas and Biodiversity
Policies, Strategic Planning, and Education Programs
Protecting Health from Climate Change
