

CALL FOR PAPERS

ICMMTS 2020
Jan 23-24, 2020
Paris, France

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMMTS 2020 : International Conference on Mobile Mapping Technology and Systems is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mobile Mapping Technology and Systems. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Mobile mapping technology
Mapping and navigation
Mobile mapping applications
Mobile mapping systems
Mapping and navigation
Mobile mapping applications
Mobile platforms
Navigation, sensors and positioning
Navigation sensors and imaging sensors
Public safety and emergency response
Remote sensing and spectral imaging
Satellite positioning
Sensors for smart cities

Smart collaborative platforms and logistics
Big data analytics
Big data and risk management
Cadastral systems
Defense and industrial applications
Digital imaging and remote sensing systems
Environment and disaster monitoring
Geographic information systems
Georeferencing and sensor technologies
Infrastructure engineering
Intelligent transportation systems
Field data collection and geomatics
Ubiquitous positioning and mobile location-based services
