

# CALL FOR PAPERS

**ICMN 2020**  
**Jan 09-10, 2020**  
**Singapore, SG**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMN 2020 : International Conference on Magnetic Nanoalloys is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Magnetic Nanoalloys. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Magnetic properties of nanostructured materials  
Synthesis and characterization of magnetic nanoalloys  
Recent advances in the chemical physics of magnetic nanoalloys

Intrinsic magnetic properties of nanoparticles  
The use of nanoalloys, metallic, bimetallic, and magnetic nanoparticles
