

# CALL FOR PAPERS

**ICOMCPM 2020**  
**Jan 09-10, 2020**  
**Singapore, SG**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICOMCPM 2020 : International Conference on Organic Materials Chemistry and Processing Methods is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Organic Materials Chemistry and Processing Methods. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Organic materials chemistry  
Nomenclature and isomerism  
Structural chemistry  
Metal-organic frameworks  
Conjugated systems and chromophores  
Diamond and carbon materials  
Resonating organic materials  
Macromolecules  
Advanced macromolecule materials  
Physical chemistry of polymers

Self-healing polymers  
Random and block copolymers  
Optical polymers  
Biodegradable polymers and environmental issues  
Supramolecular systems as future materials.  
Microchip fabrication  
Smart materials with a focus on smart gels  
Organic electronics in biology including issues of biocompatibility  
Chemistry of synthetic photosynthetic centres
