

CALL FOR PAPERS

ICFEE 2020
Jan 06-07, 2020
Tokyo, Japan

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFEE 2020 : International Conference on Freshwater Ecosystems and Ecology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Freshwater Ecosystems and Ecology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Freshwater ecosystems
Hydrology and physiography of
groundwater and wetland habitats
Physiography of lakes and
reservoirs
Aquatic organisms
Microbes and plants
Plants and animals in freshwater
communities
Freshwater plants and nutrients

Extinction of freshwater fauna
Biodiversity of freshwaters
Aquatic chemistry and nutrient
cycling
Toxic chemicals and other
pollutants in aquatic ecosystems
Nutrient use and remineralization
Predation and food webs
Fish ecology and fisheries
