

CALL FOR PAPERS

ICFS 2020
Feb 06-07, 2020
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICFS 2020 : International Conference on Fluids and Structures is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Fluids and Structures. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Fluid-structure interactions
Numerical methods for
fluid-structure interaction
Computational methods for
fluid-structure interaction
Concepts, definitions and methods
in fluid-structure interactions
Coupled fluid-structure
interactions
Fully Eulerian formulation for
fluid-structure interactions

Linear solvers for fluid-structure
interactions
Error estimation and adaptivity
Optimization with fluid-structure
interactions
Mechano-chemical fluid-structure
interactions and active materials
Non-stationary dynamics and coupled
oscillations
Fluid-structure interaction with
contact
