

# CALL FOR PAPERS

**ICMEPT 2020**  
**Feb 06-07, 2020**  
**Amsterdam, The Netherlands**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICMEPT 2020 : International Conference on Mechanical Engineering and Production Technology is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Mechanical Engineering and Production Technology. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Production technology  
Manufacturing processes  
Forming processes  
Assembly operations  
Automation  
Engineering materials  
Properties of materials  
Structure of metals  
Structure of alloys  
Ferrous alloys  
Non-ferrous alloys  
Non-metals

Production planning  
Production planning and control  
Quality control  
Work design  
Costing  
Production engineering  
Industrial design and production engineering  
Production management and maintenance  
Operation management and supply chain management  
Innovations in production processes  
Computer aided engineering for process chain and factory management
