

CALL FOR PAPERS

ICRTPM 2020
Feb 06-07, 2020
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICRTPM 2020 : International Conference on Rail Transport Planning and Management is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Rail Transport Planning and Management. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Rail transport systems
Rail transport planning and management
Rail transport, advantages and disadvantages
Rail-based transportation systems
Transport organization and technology
Advanced rail technologies
Railway timetable and traffic
Technologies, theories and engineering applications of rail transit systems
Rail vehicles, infrastructure, traction power, operation, and communication

Dynamics and mechanics of rail vehicles
Rail infrastructure planning and design, construction, operation, inspection, and maintenance
Train operation, control, scheduling and management
Rail electrification, signaling and communication
Environmental impacts
Rail transport infrastructure
Traffic control and IT for railways
Traction and rolling stock
Materials engineering and recycling in the rail transport
