

CALL FOR PAPERS

ICUSU 2020
Feb 06-07, 2020
Amsterdam, The Netherlands

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICUSU 2020 : International Conference on Urban Sustainability and Urbanization is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Urban Sustainability and Urbanization. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Sustainable urban systems	Urbanization and economic development
Theoretical framework of urban sustainability	Components of urban population growth
Strategies for sustainable urban systems	Consequences of urbanization
Sustainable urban transportation systems	Rapid urbanization
Effective modelling of urban systems	Urban infrastructure
Urban systems and sustainability	Urban transportation
Urban ecosystem	Environmental management
Urban ecological space	Urban energy systems
Urban sustainability dimensions	Economic sustainability
Urban patterns	Social sustainability
Urban flows	Environmental sustainability
Urban quality	Implications for urban sustainability
