

CALL FOR PAPERS

ICGBTPH 2020
Feb 03-04, 2020
Bangkok, Thailand

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICGBTPH 2020 : International Conference on Genome-Based Technologies and Public Health is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Genome-Based Technologies and Public Health. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Precision public health and genomic medicine
Public health genomics
Genetics
Implementation and communication
Genetic counseling

Population screening
Genetic and environmental diseases
Epigenomics, integrative genomics or genome-environmental interactions
Prevention and management of diseases
Genome-based technologies
