

# CALL FOR PAPERS

**ICSPP 2020**  
**Feb 03-04, 2020**  
**Bangkok, Thailand**

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICSPP 2020 : International Conference on Supersymmetry in Particle Physics is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Supersymmetry in Particle Physics. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Supersymmetry  
General and extended supersymmetry  
The hierarchy problem  
Gauge coupling unification  
Dark matter  
Extension of possible symmetry groups  
The supersymmetry algebra  
The supersymmetric standard model

Gauge-coupling unification  
Supersymmetric quantum mechanics  
Supersymmetry: applications to condensed matter physics  
Supersymmetry in optics  
Supersymmetry in dynamical systems  
Supersymmetry in alternate numbers of dimensions  
Supersymmetry in quantum gravity
