

CALL FOR PAPERS

ICBMTGP 2020
Feb 10-11, 2020
Kuala Lumpur, Malaysia

The International Research Conference is a federated organization dedicated to bringing together a significant number of diverse scholarly events for presentation within the conference program. Events will run over a span of time during the conference depending on the number and length of the presentations.

ICBMTGP 2020 : International Conference on Bayesian Method and Tools for Geotechnical Practice is the premier interdisciplinary forum for the presentation of new advances and research results in the fields of Bayesian Method and Tools for Geotechnical Practice. The conference will bring together leading academic scientists, researchers and scholars in the domain of interest from around the world. Topics of interest for submission include, but are not limited to:

Bayesian method and tools for
geotechnical practice
Bayesian thinking in geotechnics
Application of Bayesian methods to
reliability updating and design
Bayesian methods for scarce site
investigation data

Reliability and survival analysis
Pile foundations and levees
Direct probability-based design
